## Career Objective

Motivated B.Tech student specializing in Artificial Intelligence and Data Science, with a strong academic record and hands-on experience in web and data-driven projects. Seeking opportunities to apply analytical thinking, programming skills, and leadership abilities to solve real-world problems and contribute to innovative technology-driven solutions.

## Education

### Bachelor of Technology (B.Tech) – Artificial Intelligence & Data Science

Vivekanand Education Society's Institute of Technology (VESIT)

Mumbai University | CGPA: 9.84

## Skills

- Programming Languages: HTML, CSS, JavaScript, Java
- Tools & Technologies: Python, GitHub, Web Development, Basic Data Analysis
- Soft Skills: Communication, Team Leadership

## Projects

### AeroGuard

Technologies: HTML, CSS, JavaScript, Python

AeroGuard is a real-time AQI and climate condition monitoring system that provides personalized health and safety suggestions based on the user's age group and profession.

GitHub: <https://github.com/AIColegion-VESIT/team-05-vaelix>

## Experience & Hackathons

Participated in two hackathons as a team leader. Although the team did not win, the experience strengthened problem-solving skills, teamwork, leadership, and practical application of technical knowledge under time constraints.

## Certifications

Google Cloud Certification – Credly
